Re: Pre-Qualification Status

Dear Jennifer Muhrad,

We have now received all of the information required for us to complete our review for your pre-qualification to do work for Plaza Construction. Our initial review is complete and you are eligible to bid on work for our projects as appropriate.

Please be advised that the ultimate decision to award you any contracts is dependent upon your capabilities relevant to the projects involved and the owner's review and approval (as required) recognizing the ultimate award is solely based upon the evaluation and decision of the respective Plaza project management team.

Our policy requires that any contract award in excess of \$250,000 requires the subcontractor to provide a performance bond (from a surety acceptable to Plaza in its sole discretion) or in certain situations for the contractor to be eligible to participate in our Sub-Guard program. In addition, in certain cases you may also be asked to modify and/or increase liability and umbrella insurance coverage for specific projects.

Periodically you will receive an automatic notification for you to update your submissions.

If you should have any questions or need to contact us, please feel free to use the information below.

Sincerely,

Plaza Construction

Pre-Qualification Department
