

MONTANA
CREATING LASTING CONNECTIONS

Who We Are

Montana was established in 1996 and rapidly became a key distributor of electrical, data, conduit, transit, telephone, video, fire alarm, security, plumbing, industrial products, and engineering services. We attribute our growth and continued success to the quality products, competitive pricing and prompt service that Montana provides for both large- and small-scale customers. As a Certified Woman Business Enterprise we work on large-scale projects for the Department of Transportation, Metropolitan Transportation Authority, and School Construction Authority—just to name a few.

Montana is conveniently located in Long Island City and Orange County, NY – we can provide timely deliveries with our 9 trucks to any location. We look forward to building a solid business relationship with you.

MONTANA
CREATING LASTING CONNECTIONS

We Deliver

Montana has 10,000 Square Feet of warehouse space conveniently located in Long Island City, NY. Additionally, we have another 60,000 Square Feet of Warehouse Space in Orange County, NY, which enables us to stock high levels of inventory and provide timely deliveries to any location.

We currently stock fiber, cable, connectivity, conduit, pipe, wire management, tools, and more.

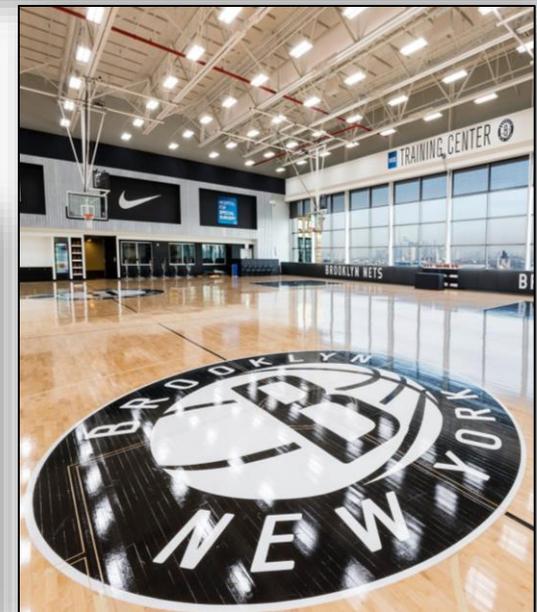

Featured Projects

Stadiums

Montana was an integral part in the installation of telecommunication system at sports facilities like Citi Field, Yankee Stadium, Met Life, Barclay Center, Brooklyn Nets Training facility, Belmont Stadium and Raceway and more.

Not only did we supply and manage materials like cabinets, racks, fiber, and copper wire for electrical contractors at the sites, we were also responsible for staging and tagging wire based on location.

Airports

Montana supplied a wide variety of cable and fiber to all major airports such as Newark Airport, John F Kennedy Airport, Newark Airport, and La Guardia airport. We diligently worked with our vendors and the BMS system integrators to streamline installation of various telecommunication systems.

Convention Centers

Montana supplied a wide variety of materials ranging from the UPS system, wire, telecommunication and more to conventions centers such as Jacob Javits Center.

We provided a high level of service and attention to detail that helped manage the project in partnership with the contractors.

We are also the trusted supplier for the construction of wide range of commercial spaces such as One Vanderbilt, Citi Bank, Hudson Yards, and Amazon Warehouses.

Hospitals, Universities & Other Institutions

Recently Montana has worked with multiple institutions in healthcare and educational industries.

The list of places include, but are not limited to Coney Island Hospital, Mount Sinai hospital, Stonybrook University and Staten Island University.

We supplied contractors with materials such as cabinets, racks, fiber, and copper wire.

Our services even included staging the wire at the jobsites and tagging/markings them by location.

MONTANA

CREATING LASTING CONNECTIONS

At Montana, we understand the importance to not just make a connection but to make one that's personal. Our knowledgeable sales team takes pride in being our clients' go-to-resource for design assistance, installation support, and local inventory. Constant education of our support staff allows quality to be woven throughout the Montana organization. It's what separates us from our competitors and keeps our clients coming back again and again. At Montana we make it our business to create lasting connections.

-Jennifer Muhlrاد, President
